

# Eligibility criteria for Masters scholarships to the London School of Hygiene & Tropical Medicine

## Commonwealth Eye Health Consortium

March 2014

The applicant must:

- come from low or middle income Commonwealth countries that are less represented in the alumni body of the MSc Public health for eye care
- work in regions where there are severe constraints in human resources for eye health
- work in regions where there are no / limited training opportunities in PHEC / community eye health
- demonstrate previous involvement / commitment to community eye health activities or VISION2020 programmes
- present a clear career plan in public health for eye care, which they will realistically be able to follow on completion of the MSc
- have experience in public health for eye care based research and/or training in eye care
- be able to speak, read and write English
